National Aeronautics and Space Administration, Gene L. Waltman : **Black Magic and Gremlins: Analog Flight Simulations at NASA's Flight Research Center (The NASA History Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Black Magic and Gremlins: Analog Flight Simulations at NASA's Flight Research Center (The NASA History Series):

0 of 0 people found the following review helpful. Five StarsBy CustomerGreat book.

This history of the Flight Research Center (FRC) Simulation Laboratory (FSL) describes the development of experimental flight-test simulators and the rapid evolution of the computers that made them run. (The FRC was a

predecessor of NASA's Dryden Flight Research Center, Edwards, California.) Gene Waltman has provided a smooth blend of anecdotal narrative and technical jargon that maintains reader interest whether or not the reader is computer literate.
