Sir, can you stay a moment? Sam quietly murmured to Gen. Washington as he rose to leave the Long Room at Sams Queens Head Tavern in New York City that 21st of June 1776. Washington sat suddenly, stunned, as Sam told him he suspected they had been poisoned by one of the General's Life Guards." What would you do if there was suddenly a civil war raging around you, where your family and friends took different sides? If it meant losing your business, clients and friends, would you speak up or stay quiet? Would you find a safe place to go with your family or volunteer to spy? This is a story about those hard choices and the people who made them. -How did Sam save Washington's life - twice? -Why did Sam live a secret life as a spy for years? -New information solves the mystery: Was Sam White or Black? This is a story about Samuel Fraunces, an ordinary man who did extraordinary things, not in the heat of a moment, but under threat of death for years. His courageous acts literally saved the American Revolution several times. Sam was a successful Black entrepreneur in a time of slavery and great prejudice. He deserves to be remembered as the hero he was.
