In a work rich in maritime lore and brimming with original historical detail, Eric Jay Dolin, the best-selling author of

Leviathan, presents an epic history of American lighthouses, telling the story of America through the prism of its beloved coastal sentinels. Set against the backdrop of an expanding nation, Brilliant Beacons traces the evolution of America's lighthouse system from its earliest days, highlighting the political, military, and technological battles fought to illuminate the nation's hardscrabble coastlines. Beginning with "Boston Light," America's first lighthouse, Dolin shows how the story of America, from colony to regional backwater, to fledgling nation, and eventually to global industrial power, can be illustrated through its lighthouses.
