When B appeared at the door of our bus at Jamestown years ago, my fourth graders and I had no idea what a treat was in store for us. B's ways of keeping

the students' attention are respectful and fun. B's questions make kids think. B's stories delight and inform and make us wonder if he was actually there in the early years of Jamestown. He's a little mysterious. I have requested him for our group every year since, although it doesn't always happen. Turns out this book (among other things) preserves the stories and questions we hear on the tour - and there is more, but that alone makes the book worthwhile.to me.

According to the author: "This is not exactly a book about history, or about teaching and learning methodologies, or educational theory and practice, or museum operations, or politics or revolution or the future. It's about all of these things, and more, because it's a book about people . . . It is supposedly about my experiences as a museum tour guide, but is really about what more than six decades of studying history with a purpose have taught me.
