Larry Gonick : Cartoon History of the United States (Cartoon Guide Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Cartoon History of the United States (Cartoon Guide Series):

0 of 0 people found the following review helpful. Great book to give as a gift!By A. M. EdwardsA great way to get your children interested in the history of the United States. My son, age 10, enjoyed this book immensely and has carried his knowledge forward as he explores more areas of geography, government and US history. Definitely a fun read!1 of 1 people found the following review helpful. I never knew that!By Coreen BorisyThis was a gift, but all of Gonick's books are amazing. You'll be surprised what you never learned in school...a wonderful review or could be a great teaching tool to a kid who says they hate history. Suitable for middle school or high school, but not an easy read even though it's written like a comic book.1 of 1 people found the following review helpful. Funny and informativeBy Brittany HazeltonThe comics are written in the style of political cartoons. I found the story easy to follow and learned somethings about our government system that I didn't remember from high school. A great gift for the history teacher

or history fan in your life.

What? You don't know what a Burgess is? -- You can't outline the Monroe Doctrine? -- Recall the 14th Amendment? -- Explain the difference between a sputnik and a beatnik? Then you need *The Cartoon History of the United States* to fill those gaps. From the first English colonies to the Gulf War and the SL debacle, Larry Gonick spells it all out from his unique cartoon perspective.

"A perfect gift for that teenager who simply can't get American history straight . . ."-- "San Francisco Chronicle" "Gonick's irreverent humor is effective . . . the text sparkles . . ."-- "Los Angeles Times" . . . a vital, dynamic, and consistently challenging panorama of our past."-- "The Comics Journal" About the Author Larry Gonick has been creating comics that explain math, history, science, and other big subjects for more than forty years. He has been a calculus instructor at Harvard (where he earned his BA and MA in mathematics) and a Knight Science Journalism Fellow at MIT, and he is currently staff cartoonist for *Muse* magazine. He lives in San Francisco, California.
