Great publication to learn about slavery of all races and not so well known parts of historyBy Christos Christou Jr.This book is great for those students of history who want to learn more about parts of history that are not well known by most people and not often taught in schools but that was a large part of the 1500s-early 1700s. It also puts slavery into context of the times for real students of history. White Slavery was as common as any other race's enslavement.

This is a study that digs deeply into this 'other' slavery, the bondage of Europeans by North-African Muslims that flourished during the same centuries as the heyday of the trans-Atlantic trade from sub-Saharan Africa to the Americas. Here are explored the actual extent of Barbary Coast slavery, the dynamic relationship between master and slave, and the effects of this slaving on Italy, one of the slave takers' primary targets and victims.

'*Christian Slaves, Muslim Masters* is about a subject of immense importance, which has been strangely neglected...It is very well researched, and... at a time of unprecedented interest in racial slavery in America, it is interesting to read a crucial and informative preview to that subject.' - David Brion Davis, Yale UniversityAbout the AuthorRobert C.
