Sebastian Kim, Kirsteen Kim : Christianity as a World Religion before purchasing it in order to gage whether or not it would be worth my time, and all praised Christianity as a World Religion:

0 of 0 people found the following review helpful. The beginning of the book gives an excellent survey of origins and present day Christianity with some ...By Charles P. Poole, Jr. The beginning of the book gives an excellent survey of origins and present day Christianity with some emphasis on Europe. Most of the chapters deal with the various parts of the world where Christians dominate or are very numerous. The final chapter treats worldwide issues and transnational

movements, The last section discusses the "world future of Christianity." A highly recommended excellent survey! 0 of 0 people found the following review helpful. Five Stars By loi huu nguyengood 0 of 0 people found the following review helpful. Good study book By Violet J. Berry This was required reading in my Masters class. It is a good source book and one I will keep in my library.

This new introductory textbook locates Christianity in its global context. It is structured by geographical region, covering Latin America, North America, Asia, Africa and Europe. This guide is designed to explore the varied expressions of Christianity worldwide. Clearly organized and comprehensive, it deals with four dimensions of Christianity in each context: history, churches and society, interreligious relations, distinctive worship and theology. This is the perfect text for anyone who wants to understand the largest of faiths on the world stage.

'In this lucid text, Kim and Kim demonstrate how Christianity like other world religions is both an agent of globalization and a product of it. More precisely, they articulate the myriad different ways in which the Christian faith has been received in different parts of the world, and how believers of all kinds have made it their own. I recommend it warmly to specialists and non-specialists alike.' Grace Davie, Professor of Sociology, University of Exeter, UK
