Robert C. Walton : Chronological and Background Charts of Church History (ZondervanCharts) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Chronological and Background Charts of Church History (ZondervanCharts):

0 of 0 people found the following review helpful. GoodBy Adriano Santana FonsecaGood0 of 0 people found the following review helpful. This book reveals much of the real truth about our present-days religious organizations. By James C. HodgesThis is a rare book indeed. It is the third in a series starting back around 1950, each edition essentially updates the former. I am an engineer/geologist, not a priest/minister, but this book really lays out the statistics that no other book that I know of does. If you are interested in the "truth" about our religious organizations now-a-days, this is the real stuff.0 of 0 people found the following review helpful. Five StarsBy michael aaron hilliardLove it!

The rich tapestry of nearly 2,000 years of church history overflows with persons, places, events, dates, and ideas. This volume in the popular ZondervanCharts series visually organizes large amounts of information from the history of the church for greater understanding and ease of reference. Students, teachers, pastors, and church history buffs will find this collection a valuable reference, one they will turn to again and again for their own information and for teaching others. This revised and expanded edition contains 126 charts (43 of which are new) that cover the history of the ancient church, the medieval church, the Reformation, the modern European church, the American church, and more. The accessible visual presentation assists in grasping not only facts, but parallels, contrasts, and relationships between those facts. Besides the charts themselves, a helpful bibliography and index are included.
