Kathleen Deagan, Jos Mara Cruxent : Columbus's Outpost among the Tanos: Spain and America at La Isabela, 1493-1498 before purchasing it in order to gage whether or not it would be worth my time, and all praised Columbus's Outpost among the Tanos: Spain and America at La Isabela, 1493-1498:

7 of 7 people found the following review helpful. A Tremendous Example of Historical Research By Armando J. Marti I read it in three days. A must have book for anyone interested in the Conquista and early colonization of the Caribbean and America in General. I also believe that anyone interested in the life and deeds of Christopher Columbus should read this work. The authors' combination of archaeological excavation with documentary research is excellent

and should serve as an example for future research projects. Furthermore, some of the discoveries they made will be quite unexpected and surprising for the general public, and even for those familiar with their work. Despite the fact that both Deagan and Cruxent are highly regarded experts in Caribbean archaeology, they have written a book that can be enjoyed by the general public.² of 2 people found the following review helpful. fascinating By Seth J. Frantzman The story of the first Spanish settlement in the New World and its relationship with the local Taino Indians on Hispanola. Established by Columbus in 1493 the settlement faced hard times to carve out an existence in a new land. This story uses archeological evidence and other sources to tell the story. A fascinating history that is both obscure, small and very colorful. Seth J. Frantzman

In 1493 Christopher Columbus led a fleet of 17 ships and more than 1200 men to found a royal trading colony in America. Columbus had high hopes for his settlement, which he named La Isabela after the queen of Spain, but just five years later it was in ruins. It remains important, however, as the first site of European settlement in America and the first place of sustained interaction between Europeans and the indigenous Tainos. Kathleen Deagan and Jose Maria Cruxent tell the story of this historic enterprise. Drawing on their ten-year archaeological investigation of the site of La Isabela, along with research into Columbus-era documents, they contrast Spanish expectations of America with the actual events and living conditions at America's first European town. Deagan and Cruxent argue that La Isabela failed not because Columbus was a poor planner but because his vision of America was grounded in European experience and could not be sustained in the face of the realities of American life. Explaining that the original Spanish economic and social frameworks for colonization had to be altered in America in response to the American landscape and the non-elite Spanish and Taino people who occupied it, they shed light on larger questions of American colonialism and the development of Euro-American cultural identity.

. . . . [A]n outstanding account. . . . that clearly illustrates the importance of historical archaeology and how it expands the historical record. . . . -- (Mark Michel, *American Archaeology*) From the Back Cover "La Isabela, founded by Columbus during his second voyage, was the first Spanish settlement in the New World. Kathleen Deagan and J.M. Cruxent are uniquely qualified to discuss this important event. Their book is based on sound scholarship and its style is clear and readable." Irving Rouse, author of *The Tainos: Rise and Decline of the People Who Greeted Columbus* About the Author Kathleen Deagan is Distinguished Research Curator at the Florida Museum of Natural History, University of Florida. Jose Maria Cruxent is professor emeritus at Universidad Nacional y Experimental Francisco de Miranda in Coro, Venezuela. They are also the coauthors of *Archaeology at La Isabela: America's First European Town* 90 300 09041 2, [pound]45.00), also published by Yale University Press.
