The complete book is quite engaging, capturing the highlights of its topic without much editorial bias. (As I prepare to teach this series, I also am reading "Christianity Through the Centuries" (Cairns) and A History of Christianity (Latourette) which are textbooks--so I have done plenty of comparative study.) It is thoroughly Christian, referencing scripture and tradition while imparting our complex history. Both the DVD and PowerPoint presentation are well-tuned to the book without being just the book in a different form. Even if someone was not a history buff, a leader could manage the participants through the study quite well. I was not as impressed with the participant guide, and will probably use the Powerpoint handouts and the other materials on the resource CD. It is a fabulous value for the materials, which are all contemporary in style and content; probably the best pre-packaged Christian study I've ever done. Blessings to Timothy Paul Jones (author) !

This is a great beginning for those who do not like to read dry history books. Once my class saw the overall picture they were inspired to dig into history and find other accounts. I am grateful for Dr. Jones' faith as he ends each video with a personal application. This is faith building and encouraging. As in all history it is impossible to know everything as well as cover it all in these short inspiring videos. Consider these videos as a jump start to greater study.
