Marcel Griaule : Conversations With Ogotemmeli: An Introduction to Dogon Religious Ideas before purchasing it in order to gage whether or not it would be worth my time, and all praised Conversations With Ogotemmeli: An Introduction to Dogon Religious Ideas:

2 of 9 people found the following review helpful. Ogotemmeli favors female genital mutilationBy Earl WagoI bought

this book because I wanted to learn more about the reputed Sirius extraterrestrials who supposedly visited with the Dogon in the distant past. Instead, I found myself reading mostly about the minutiae of Dogon sacred rituals with a heavy emphasis on the importance of female genital mutilation, a practice which is at the center of Dogon tradition. 3 of 3 people found the following review helpful. Something to challenge the average person By Amari In the history of man, before religion, people believed in G-d. He was not the G-d that we are taught about today. This book examines their beliefs. It also shows that they had stories about creation and the flood. Now some things may be controversial to the average person. I am not saying everything contained in this book is all unquestionable truth, but you can learn about our ancestors and even see parallels to the common church teaching of today. Just keep your mind open. 3 of 4 people found the following review helpful. not worth it. By The Awakenor Not what I thought it would be, doesn't touch on the alien information I was looking for. Its more or just layers of primitive mythology and personal story's. I was prompted to order this book because the master of speech website claims to be quoting out of this book. I found no quote referenced in this book as claimed by master of speech

Originally published in 1948 as *Dieu d'Eau*, this near-classic offers a unique and first-hand account of the myth, religion and philosophy of the Dogon...

"Thoroughly recommended as one of the most important studies of West African traditional religion."--Geoffrey Parrinder, *West Africa* "Will prove of interest and enlightenment to those still inclined to underestimate African subtlety and sophistication."--*Times Literary Supplement* "Dogon religion (Sudan) is seen through the eyes of...an elder of exceptional intellectual attainments.... It is good to have this material now in English."--*Anthropological Forum* From the Back Cover Originally published in 1948 as *Dieu d'Eau*, this near-classic offers a unique and first-hand account of the myth, religion, and philosophy of the Dogon, A Sudanese people.
