This textbook applies cultural psychology and cultural competency to the challenges present in diverse Christian colleges and churches. Students are challenged to implement strategies to advance their cultural competence at the

individual, interpersonal, and organizational levels. The text reviews the current literature base in the fields of multicultural psychology and cultural competence and integrates the material with Christian faith, providing an enriched basis for readers to be motivated to internalize and apply the material. Additionally, the text utilizes recent student narratives to illustrate the material. This is the only faith-integrated multicultural psychology book on the market, focusing on applying multicultural psychology and cultural competency to Christian communities, both on university campuses and churches.
