Alexis de Tocqueville : Democracy in America: All Volumes before purchasing it in order to gage whether or not it would be worth my time, and all praised Democracy in America: All Volumes:

1 of 1 people found the following review helpful. Good history of US Government beginningBy Lois E.Great history but writing style is very different from today's language and I find it quite difficult to Plow through. But good information about our early government and how the early colonies contributed to a totally new government from that of their home countries.4 of 4 people found the following review helpful. An amazing man, with amazing powers of observationBy J. K. ChickAn amazing man, with amazing powers of observation, and the ability to "predict" if you

will, the future of the new country. gleaned from what he saw..... Must read 2 of 2 people found the following review helpful. He offers a balanced view of America at the time and warns us of the possibility of the present times. By JGB He foresaw many of the troubles we are experiencing now. He offers a very clear view of our new country at the time of his visit.

Alexis de Tocqueville's *Democracy in America* is perhaps the most famous analysis of the social and political structure of the United States in the early 19th century. As a contemporary of the Founding Fathers and a detached objective observer, de Tocqueville is one of the most important political scientists to write about America, and many of his observations on issues like slavery would prove particularly prescient. As a result, his seminal work is still considered a must read for anyone interested in American history.
