Hatfield Excellent resource for church history course that makes accessible portions of essential church documents discussed in a church history course. I highly recommend this work for providing the student the opportunity to

engage with the primary documents on the bare essentials level. 0 of 0 people found the following review helpful. Solid Resource By Robert Widdowson Solid resource. Very affordable second-hand copy. In mint condition. Documents of the Christian Church furnishes the reader with key documents from the history of the church. Essential reading for thinking Christians. So much heresy and just-plain-nonsense would be cleared away if Christians knew what their wise, wonderful, and supremely intelligent ancestors wrote on various issues. 0 of 0 people found the following review helpful. Interesting book based on original documents By Terence Mills I love to read original documents. I like to hear authors from centuries ago. In this book, you can read extracts from documents of the Christian world from classical times to not-so-long-ago. You can read descriptions of Christians being persecuted; ancient debates that still rage; some issues are deep and still unresolved; others are more like "How many angels can fit on the head of a pin?"; Christians were called "atheists" in Roman times. This is a book for dipping. There is no need to read it from cover to cover. But - what would Jesus make of these documents? I'd love to ask Him. Dominus vobiscum.

This selection of writings from the most important moments in the history of Christianity has become established as a classic reference work, providing insights into 2000 years of Christian theological and political debate. While retaining the original material selected by Henry Bettenson, Chris Maunder has added a substantial section of more recent writings. These illustrate the Second Vatican Council; the theologies of liberation; Church and State from 'Thatcher's Britain' to Communist Eastern Europe; Black, feminist, and ecological theology; ecumenism; and inter-faith dialogue. The emphasis on moral debate in the contemporary churches is reflected in selections discussing questions about homosexuality, divorce, AIDS, and in-vitro fertilization, amongst other issues. This further expanded fourth edition brings the anthology up-to-date with a new section looking at issues facing the twenty-first century churches. This includes extracts exploring the churches' responses to questions of social justice, international politics, trade and debt, environmental change, and technological development. New material also covers the global growth of Christianity, the progress of Christian unity, and mission in multi-faith and postmodern societies.

'That invaluable Christian reference book' -- Church Times About the Author Chris Maunder is Head of BA Theology and Religious Studies at York St. John University.
