From Gould Eliga H : Empire and Nation: The American Revolution in the Atlantic World (Anglo-America in the Transatlantic World) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Empire and Nation: The American Revolution in the Atlantic World (Anglo-America in the Transatlantic World):

0 of 0 people found the following review helpful. Five StarsBy Phillip E. MyersExcellent new source for my research.

The essays in *Empire and Nation* challenge facile assumptions about the "exceptional" character of the republic's founding moment, even as they invite readers to think anew about the complex ways in which the Revolution reshaped both American society and the Atlantic world. How did events and ideas from elsewhere in the British empire influence development in the thirteen American colonies? And what was the effect of the American Revolution on the wider Atlantic world? In *Empire and Nation*, leading historians reconsider the American Revolution as a transnational event, with many sources and momentous implications for Ireland, Africa, the West Indies, Canada, and Britain itself. The opening section of the book situates the origins of the American Revolution in the commercial, ethnic, and political ferment that characterized Britain's Atlantic empire at the close of the Seven Years' War. The empire experienced extraordinary changes, ranging from the first stirrings of nationalism in Ireland to the dramatic expansion of British rule in Canada, Africa, and India. The second part focuses on the rebellion of the thirteen colonies, touching on slavery and ethnicity, the changing nature of religious faith, and ideas about civil society and political organization. Finally, contributors examine the changes wrought by the American Revolution both within Britain's remaining imperial possessions and among the other states in the emerging "concert of Europe."

"The essays in this collection are in turns stimulating, provocative, and enlightening. They represent some of the best new work on the political history of the American Revolution and highlight some promising new directions in Atlantic history." (Journal of Southern History)"The many interesting essays in this volume together constitute a valuable scholarly contribution." (Eric Hinderaker Journal of Colonialism and Colonial History)"Taken together, these essays whet the reader's appetite for more." (Colin Bonwick Journal of American History)"Exciting new collection." (Peter A. Coclanis New West Indian Guide)"A stout, wide-ranging and well-produced volume which includes many useful contributions and testifies to ways in which the American Revolution has now been accommodated." (Journal of American Studies)"In very thin disguise, this book is a thoroughly deserved festschrift for Johns Hopkins historian and long-time Doktorvater, Jack P. Greene." (Edward Countryman Journal of the Early Republic)"An excellent collection of specialized monographs on a variety of topics in the reformation of the British Empire following the Seven Years War." (Wayne F. Anderson Sixteenth Century Journal)"This collection of essays represents an important and rigorously-researched body of scholarship." (James E. Bradley Parliamentary History)From the Back CoverIn *Empire and Nation*, leading historians reconsider the American Revolution as a transnational event, with many sources and momentous implications for Ireland, Africa, the West Indies, Canada, and Britain itself.
