By Carroll J. Gleason
Wow! Great book Dr. Houck! Having twice read "Epidemic: Examining the Infected Roots of Judaism and Christianity" was a real eye-opener for me. I'm not one to take 30 years of my life on a scholarly quest for answers and so thankful for Dr. Houck taking the time and effort to do so. I'm also grateful that he spent the time and energy to write his findings to be shared with the world so we can come to a better knowledge concerning the things of God. Undoubtedly many toes have been stepped on, but that's not necessarily a bad thing, even if it is uncomfortable. It's also easy to understand why many who hold to cherished doctrines and traditions will find this book to be offensive. However, you owe it to yourself to carefully read this work and let it provoke you to examine your beliefs and why you believe them. For me it brought the understanding that much of what I had held to as doctrine was actually tradition that was not founded on scripture. To say that this book is controversial could very well be an understatement. Anytime a person makes a strong statement that goes contrary to long-held beliefs is certainly going to stir up opposition. How often have we heard said, and even said it ourselves, that we need to use a two-by-four to get someone's attention? Metaphorically speaking "Epidemic" is the two-by-four that is necessary to be applied today. Believers of all "faiths" need to be awakened to prepare for what is fast approaching, and is even at the door. There have been a number of negative posts advising you not to read this book. If you choose others to do the thinking for you then it is to your own detriment. You may disagree with everything in the book but you may be rather surprised, if not shocked by what you will learn as you read it completely and objectively. It can change your life in a positive way. This is a "must read" book by all believers if for no other reason than to examine the possibility of whether you have "infected roots" that need an "injection for the infection". Read it for yourself and don't take others word for it and allow the Holy Spirit to open your understanding to His truth.

By Benancio
This is an excellent read! I started reading it a couple of months ago. It has helped me greatly with struggles, experiences, and unanswered questions in my faith and walk with God. It truly does identify and examine the infections of religion.

By Mike
EPIDEMIC is informative and thought provoking. Both Christians and Jews will be compelled to examine the very foundations of their faith in the light of truths revealed in this book. If you're comfortable with your religion then this book is not for you. But if you desire to be challenged and grow in your faith then you will find EPIDEMIC most enlightening. I didn't give the book five stars only because I didn't agree with 100% of the authors views.

Epidemic exposes many of the hidden agendas in the historical formation of both Judaism and Christianity. Infected roots produce infected crops. The Reformation and Messianic Judaism are also examined. Which religion has "the most" paganism? A New Covenant Awakening is prescribed!

About the Author
DR Russ Houcks Bio
Dr. Russ (Pappy) Houck was a pastor from 1978-1984. He completing his Masters in Eschatology and Ph.D. in Biblical Philosophy. Pappy was called back into the entertainment industry as his mission field. Pappy is a writer, producer, director, and editor with 20 years of media experience in television, film, radio, marketing and the music industry. He has hosted radio and television talk shows. Pappy wrote and directed the full-length feature film, No Turning Back, the first Christian film ever purchased for national television. His play Can you Hear Me NOW? debuted in the DFW Metroplex in the mid 80s as The Judgment Seat, and has been touring internationally since then in 14 languages, with over 300,000 documented salvations resulting from this powerful evangelistic tool. His latest book project, EPIDEMIC: Examining the Infected Roots of Judaism Christianity, has turned tradition-based religion on its head with a clarion call back to covenant based relationship with the Creator. Pappys clear presentation of the facts and hard hitting questions encourage all truth seekers to examine their current views and practices in the uncompromising light of historical and Scriptural truths. Pappy also travels, teaching and singing the Good News with his wife Brenda (to whom he lovingly refers as Brendarella). They are involved in the growth and development of the New Covenant Israel movement worldwide. Brendarella is a renowned makeup artist, musician, and was a top booking agent for radio and television.
