Eric Shipton : Eric Shipton: The Six Mountain-Travel Books before purchasing it in order to gage whether or not it would be worth my time, and all praised Eric Shipton: The Six Mountain-Travel Books:

1 of 1 people found the following review helpful. Best mountain travel bookBy impederBy far the best collection of mountain travel books I've ever read I've read a lot of them. Not only was Eric Shipton a superb mountaineer explorer but he had a gift of sharing his experiences with his readers with self deprecating humour.0 of 0 people found the following review helpful. Smooth as butter.By n robert croslinMy book got to me on time in good condition. So,

nothing to complain about. Great job.0 of 0 people found the following review helpful. Five StarsBy Eric RyanIncomparable "stiff upper lip" adventre writing

* Shipton's pioneering treks and climbs in unmapped mountain ranges laid the groundwork for the first ascent of Everest and other Himalayan peaks* A global traveler, he was tapped for Britains diplomatic core during World War II * These six books cover Shipton's greatest adventuresNew paper edition of the classic omnibus "Shipton 6" -- now with foreword by Stephen Venables. Includes complete text of Shipton's six books:-- Nanda Devi-- Blank on the Map-- Upon That Mountain-- Mountains of Tartary-- Mount Everest Reconnaissance Expedition 1951--- Land of TempestEric Shiptons adventures in the mountains are virtually incomparable. He explored Central Asia, Africa, and South America, making a number of significant first ascents of his own as well as pioneering routes for the first ascents of others. This set of Shiptons six mountain-travel books, now in paperback, takes readers alongon his exploits and expeditions, letting them experience a time in history when vast regions of the world were unknown to all but the indigenous inhabitants.
