**Stephen Gosch, Peter Stearns : Premodern Travel in World History (Themes in World History)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Premodern Travel in World History (Themes in World History):

This book features some of the greatest travellers in human history people who undertook long journeys to places they

knew little or nothing about. From Roman tourists, to the establishment of the Silk Road; an epic trek round China and India in the seventh century, to Marco Polo and through to the first speculations on space travel, *Premodern Travel in World History* provides an overview of long-distance travel in Afro-Eurasia from around 400BCE to 1500. This survey uses succinct accounts of the most epic journeys in the premodern world as lenses through which to examine the development of early travel, trade and cultural interchange between China, central Asia, India and southeast Asia, while also discussing themes such as the growth of empires and the spread of world religions. Complete with maps, this concise and interesting study analyzes how travel pushed and shaped the boundaries of political, geographical and cultural frontiers.
