**Pseudo Dionysius : Pseudo-Dionysius: The Complete Works (Classics of Western Spirituality (Paperback))**  
before purchasing it in order to gage whether or not it would be worth my time, and all praised Pseudo-Dionysius: The Complete Works (Classics of Western Spirituality (Paperback)):

2 of 2 people found the following review helpful. ExcellentBy ElimianI am almost finished with the reading of this

volume as I am also reading the Kindle edition of the Complete Works of Dionysius the Areopagite. This volume presents the reader with a modern translation of the works, a critical apparatus of introductions and notes, and a fairly easy approach to the writings of a great early Christian writer. Often underestimated, this ancient author has a great place in the mystical aspect of Christianity. I highly recommend it to anyone who wishes not only to know more about early Christianity, but wishes also to deepen his or her spirituality. 3 of 3 people found the following review helpful. A Spiritual Classic By Lucidity1111 I have known of Pseudo-Dionysius for some time have always loved his work. First let me say its a very well made addition, the pages are of high quality thick paper, which is great if your like me like to highlight certain parts the whole book is just in general well put together. But about Pseudo-Dionysius, in my view he is one of the best Christian/Neo-platonic writers who have ever lived. He speaks so clearly about the most profound things, he points us in the direction of the source of all things 'the One' explaining what must be done to be lifted up "beyond unknowing light" the Bliss of resting in our divine source. This book isnt just for 'Christians' but for any one interested in philosophy, theology, Mysticism, in particulare platonism. This book is a light in my life, a source of inspiration on my personal spiritual journey will continue to be for the rest of my life. 7 of 7 people found the following review helpful. Required reading for the soul By Richard O'brien As these sort of works go, Pseudo Dionysius's works definitely add depth and help sort out passages of the bible and practices within the Christian faith. I recommend skipping the introductory material in the beginning of this edition and simply reading Pseudo Dionysius's books and letters first. Then you can go back to the introductory material. I say this only because I like to skip any and all introductory material in any book I read because these essays were never included in original versions. I am grateful for this series (Classics of Western Spirituality) and while the 'Ecclesiastical Hierarchy' book within this collection has more to do with those seeking the vocation, there are observations and such that will open the lay person's mind to new ideas.

Here are the complete works of the enigmatic fifth- and sixth-century writer known as the Pseudo Dionysius, prepared by a team of six research scholars.
