Vicki does a wonderful job sharing treasure stories and legends from Utah with ...By Wix Moran Vicki does a wonderful job sharing treasure stories and legends from Utah with an emphasis on the Southern portion of the state. A real interesting mix of stories too that shows Vicki's love for her home and it's rich history. Wonderful value and plenty to keep the reader dreaming about what lies in the red canyons of Utah!0 of 0 people found the following review helpful. So much fun to readBy Megan Fischer Growing up in Southern Utah, these stories were such a treat. So much fun to read!0 of 0 people found the following review helpful. Terrible writing but fascinating infoBy Pita I was truly shocked by the number of spelling and grammatical errors in this book. Clearly written by an amateur who is in need of an editor! That said, the information is really fascinating. That's why I gave it three stars.

My goal is to bring to my readers an enjoyable experience through windows of the past. I hope to bring to you many interesting tales of myths, legends, and folklore, using informative materials compiled from stories, interviews, newspaper clippings and photos I have acquired throughout the years. I may touch on subjects some may agree or disagree on, but it is my own opinion and I ask you to respect it as that. All the stories I bring to you in this book have been researched to the best of my ability. They may or may not be absolute facts; but facts as I have been told or found in my research. For centuries we have searched for the unknown, lost treasures, lost mines, and the truths surrounding these very mysteries. I have done years of research to bring to you, my readers, a glimpse of the past, in hopes that someday the quest for these very special places will once again be found and seen by the world, and then, may it be no longer known as the Quest Beyond our Reach.
