This book exposes the colonial injustice that took place in the Congo Free State (currently called the Democratic Republic of Congo) under the leadership of the Belgian King, King Leopold II. I strongly recommend this book to anybody interested in the history of Africa.

A documented and highly charged contemporary indictment of the Belgian exploitation of Africa during the height of the imperialistic age, first published in 1906 with the support of British antislavery organizations. This expose, by a horrified British investigator, of the atrocities committed against the natives of the Congo by soldiers in the employ of King Leopold of Belgium has an introduction by Sir Harry H. Johnston. This title is cited and recommended by The American Historical Association's Guide to Historical Literature.
