History may not be my favorite subject, but...By Cassidy BrunetteThis textbook is excellent. The chapters are broken up conceptually rather than chronologically so each chapter has a concrete and salient topic. The writing is fairly clear and unambiguous, and the text covers material from a variety of viewpoints. All in all, the book covers a fairly comprehensive range of material with quality content.2 of 2 people found the following review helpful. Excellent educational readBy Teresa K.Excellent educational read. Very easy to follow while maintaining your interest. Presented in a well organized analytical manner.
