I did not think that Religion has change that much since we started coming over here. If you want learn about how Religion has change since the start this is the book for you. The only problem I have with is book was that it jumps around.0 of 0 people found the following review helpful. Great book!By DaDenzWell written, concise review of the subject. Marsden is always scholarly and he writes very well. Its good to see the truth about this

subject that isn't influenced by current political correctness. I recommend it!0 of 0 people found the following review helpful. Not a bad reading!By Jean MendesNeed it for school, but it turned out to be an interesting read!

RELIGION AND AMERICAN CULTURE focuses on the relationship of religion to the social and cultural dynamics of American history. Because most survey texts provide only brief coverage of this topic, Marsden's narrative is designed to explore the role of religion in American culture.

1. Christendom and American Origins. 2. The Age of Democratic Revivals. 3. Protestant and Progressive America: 1860-1917. 4. Pluralistic America: 1860-1917. 5. Traditional Religion and Twentieth-Century. 6. Return to Faith and Quest for Consensus: 1941-1963. 7. Fragmented America--A Nation in Search of a Soul: 1960s-1980s. Notes to the Text. Suggestions for Further Reading. Acknowledgments and Credits. Index.
