Jean-Ren Jannot : Religion in Ancient Etruria (Wisconsin Studies in Classics) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Religion in Ancient Etruria (Wisconsin Studies in Classics):

6 of 6 people found the following review helpful. A "must-have", highly accessible account for any reader interested in better understanding the nuances of an ancient civilization By Midwest Book Review The first English translation of history and archaeology professor emeritus Jean-Rene Jannot's "Devins, Dieux et Demons", Religion In Ancient Etruria is a masterful examination of Etruscan religion, closely scrutinizing Etruscan beliefs with regard to death, ritual, and the nature of the gods. Expertly translated by Jane K. Whitehead into a new updated edition, the text offers students, scholars, and general audiences alike an overview of ancient Etruscan beliefs, funerary customs, concepts of an afterlife, and mythology. More than 100 black-and-white illustrations including photographs of Etruscan artifacts add a visual dimension this heavily researched and footnoted perspective. A "must-have", highly accessible account for any reader interested in better understanding the nuances of an ancient civilization's beliefs and the connections

between those beliefs and modern theologies.

This lively translation of *Devins, Dieux et Dmons* is the first English-language edition of Jean-Ren Jannot's highly informative examination of Etruscan religion. Jannot tackles this elusive subject within three major constructs: death, ritual, and the nature of the gods, and presents recent discoveries in an accessible format. Jane K. Whitehead's translation updates Jannot's innovative text and introduces readers of all types: students, scholars, and the general audience. This thorough overview of ancient Etruscan beliefs, including the afterlife, funerary customs, and mythology. Provocative insights and thoughtful discussions contribute to an understanding of the prophetic nature of Etruscan culture. Jannot investigates the elaborate systems of defining space and time that so distinctly characterize this ancient society. *Religion in Ancient Etruria* offers a unique perspective that illuminates the origins of some of our own "modern" religious beliefs. This updated edition includes more than 100 illustrations that demonstrate early temples, statues, mirrors, tablets, and sculptures. 1998 French edition, Picard

"The best introduction to Etruscan religion currently available." Christopher Smith, *American Journal of Archaeology*
"Extremely interesting, beautifully researched and current, making full use of recently discovered monuments and the latest interpretations of artifacts and texts." Richard Daniel De Puma, University of Iowa, series editor
"The up-to-date references in the footnotes support a text that explains in detail using the available evidence of artistic and archaeological monuments, inscriptions, and later literature the ideas and practice of what was, in the eyes of the Romans and no doubt in real life, the Etruscans' greatest technical expertise." Larissa Bonfante, *Etruscan Studies*
From the Publisher Series: *Wisconsin Studies in Classics* Patricia A. Rosenmeyer, General Editor 1998 French edition, Picard
From the Inside Flap "The best introduction to Etruscan religion currently available." Christopher Smith, *American Journal of Archaeology*
