Since African Americans biological heritage was marred through slavery it should be a must read for all those whose ancestors were trans-atlantic enslaved. All other races can trace their heritage.

Revealing Mistaken Identities uncovers the motive behind the Nicaraguan Contras Narcotics Trafficking Litigation. The Nicaraguan Contras lawsuits are called the CIA Cases because the United States Government, through its Central Intelligence Agency and the Department of Justice, were sued for the governments role in deliberately importing illegal drugs for distribution into Americas segregated black neighborhoods, and thereby causing harm to all Americans. Anita Belle was the plaintiffs attorney for the CIA Cases in Michigan, Florida, North Carolina, New York, Louisiana, Washington DC, and Maryland. While representing plaintiffs against the CIA, Belle and her family became the targets of COINTELPRO attacks that included seven rigged car accidents that occurred on or around her court deadlines, personal injury, loss of property, and loss of her license to practice law. At least she and her family did not lose their lives, partly because she sought political asylum as a refugee in Canada. Others who exposed evidence of the CIA planting drugs in Americas black neighborhoods did indeed lose their lives. More gripping than the government conspiracy to drug, incarcerate, and commit genocide of African-Americans was the motive for the crime: That the U.S. and other Christian governments drug their former slaves to keep blacks from discovering that some are biological Jews. Consequently, the racism of the Trans-Atlantic Slave Trade was as anti-Semitic as Europes Inquisition and the Holocaust in that slavery forced black Jews to convert to Christianity. Revealing Mistaken Identities reveals that Christendoms motive for enslaving and conquering Africa persists to this day: Africa has been and is still being treated as one more land pawn in the 1000+ year long war of Crusades versus Jihad, a holy war that continues to this very day, masking an even holier interplanetary war.

About the Author Anita E. Belle discovered her Jewish roots while representing blacks and others suing the CIA. She is an African-American born and raised in Detroit, Michigan. She graduated from Detroit's Henry Ford High School, earned her Bachelor of Science degree from Wayne State University, and earned her Juris Doctorate at the University of Florida. She is the proud mother of a son, daughter-in-law, and several grandchildren. She currently serves as the President of the Reparations Labor Union and Melanin Technology Company. At the time of this publishing, the Reparations Labor Union seeks reparations by an executive order from President Barack Obama, that reparations being the executive enactment of Detroit Congressman John Conyers H.R. 40, a bill that proposes having a commission study reparations. The Reparations Labor Union adds that, in addition to studying reparations, that the union be authorized to raise funds for voluntary reparations through a National Jubilee Lottery or sweepstakes. According to the prophecy of Genesis 15, it is in the best interests of Americas national security to pay reparations to all African Americans for the debt owed by Americas 400 years of enslaving/oppressing the black children of Abraham. Blacks with Jewish roots can then repatriate to their Promised Land, with great substance, and rebuild Solomon's Temple.
