F. Tupper Saussy : Rulers of Evil: Useful Knowledge about Governing Bodies before purchasing it in order to gauge whether or not it would be worth my time, and all praised Rulers of Evil: Useful Knowledge about Governing Bodies:

0 of 0 people found the following review helpful. Five Stars By bud1925 The best book-ever-on this topic. 1 of 2 people

found the following review helpful. Good book, too priceyBy Kindle CustomerAmazing book. Too expensive, though. Can be found elsewhere "really" cheap, if you know what I mean :-)
1 of 3 people found the following review helpful. Get out of the dark!By NoJokeManWow!

Rather than pass through the Atlanta Federal Prison Camp gate to serve a sentence for a tax misdemeanor back in 1987, author F. Tupper Saussy chose to become a fugitive in order to freely investigate his adversary -- the United States of America. What he discovered was valuable new proof of a vast Roman Catholic sub-stratum of American history -- more specifically, that Jesuits played eminent and underappreciated roles in persuading New Englanders to rebel against their mother country in 1776. Indeed, according to Saussy's groundbreaking discoveries, the American Revolution and its resulting constitutional republic may have been single-handedly designed and supervised by a Jesuit named Lorenzo Ricci -- this country's true founding father. Provocative and utterly compelling, *Rulers of Evil* analyzes the hundreds of historical clues left by the true leaders of the world. It should be read by anyone desiring to know, definitively, why America works the way it does.

From Publishers WeeklySaussy, a Grammy-nominated songwriter and author (*Miracle on Main Street*) turned conspiracy theorist, makes a case here that will strike most readers as awash in bigotry (of the anti-Catholic variety): "[T]he papacy really does run United States foreign policy, and always has." To prove that, for example, the pope controls Washington, Saussy offers "evidence" such as the number of Catholic senators and other high government officials or that "the land known today as the District of Columbia bore the name 'Rome' in 1663 property records." Further, he argues that the Jesuits "have imbued western culture with a purely Catholic political theory" the theory underlying the American Revolution, which in turn was brought about by a Jesuit priest, Lorenzo Ricci (aka Laurence Richey), as part of a plan to make America safe for Roman Catholics. Catholics were oppressed in colonial times, Saussy notes, but Catholic immigrants flooded into the U.S. from Europe in the decades following the Revolution. This book has a blurb from fellow HarperCollins author and conspiracy theorist Jim Marrs, and the publisher, in a press release and apparently asleep at the wheel, calls it a "riveting, well-researched and well-documented account of one man's discovery of the true driving forces behind our nation's history." But most will see it for what it really is an anti-Catholic version of *The Protocols of the Elders of Zion*. Copyright 2001 Cahners Business Information, Inc. "Saussy presents enough thought-provoking facts, details, and suppositions to engage the imagination of even the most jaded conspiracy theorist." -- Jim Marrs, author of *Rule By Secrecy*"A work long in the making and well worth the wait. Impeccably documented. Saussy liberates us from deception! -- Eustace Mullins, author of *"The World Order," "Secrets of the Federal Reserve"*About the AuthorF. Tupper Saussy, a native of the southeastern United States, spent ten years as a fugitive from the IRS, the period during which he did the research for this book. A true Renaissance man, he has been nominated three times for a Grammy Award, is a distinguished watercolorist, and is the author of the bestselling book *The Miracle on Main Street*. He lives in Santa Monica, California.
