Eamon Duffy : Saints and Sinners: A History of the Popes; Fourth Edition before purchasing it in order to gauge whether or not it would be worth my time, and all praised Saints and Sinners: A History of the Popes; Fourth Edition:

8 of 8 people found the following review helpful. Great Book--Poor e-book Conversion By Steve McCluskey Duffy's timely and thought-provoking history of the papacy introduces the reader to the rise of the centralized papacy and the older collegial model of Church governance, revived by Pope John XXIII and now by Pope Francis. The author's work deserved five stars but he was poorly served by the publisher's careless conversion of the print version to a Kindle e-

book. OCR errors are frequent; some truly absurd as when the bishop of Arles in southern France is consistently transposed into the zodiac as the bishop of Aries and the Ottonian Emperor's influence over the Church is transferred to the Ottoman Emperor. Such a fine book should have been proofread more carefully. 0 of 0 people found the following review helpful. Masterly handling of difficult subject By clive Eamon Duffy's history of the papacy is an intriguing study of the men and the institution. It also provides a snapshot of the history of Western civilization over 2,000 years. 0 of 0 people found the following review helpful. The book service was great and the book even more wonderful. By Customer Ordered as text for my master's program. The book service was great and the book even more wonderful.

This engrossing book encompasses the extraordinary history of the papacy, from its beginnings to the present day. This new edition covers the unprecedented resignation of Benedict XVI and the election of the first Argentinian pope. Praise for the earlier editions: Duffy enlivens the long march through church history with anecdotes that bring the different pontiffs to life. . . . Saints and Sinners is a remarkable achievement. Piers Paul Read, *The Times* (London) A distinguished text . . . offering plenty of historical facts and sobering, valuable judgments. Henry Chadwick, *New York Times Book Review* Will fascinate anyone wishing to better understand the history of the Catholic Church and the forces that have shaped the role of the papacy. Gloria J. Tysl, *Christian Century*

"[A] minor masterpiece which is everything good, popular history ought to be. . . . The most comprehensive single-volume history of the popes in print." John Adamson, *Sunday Telegraph* (on the previous edition)
