0 of 0 people found the following review helpful. Five StarsBy BeeGeeExcellent overview of the field. On the strength of his clarity and comprehensiveness, I've bought a Kindle copy of his biography of C.S. Lewis. Many new insights!2 of 3 people found the following review helpful. Why I chose this ratingBy Jeanne MartinI chose a 4-star rating because, while it is meeting the class requirements, it requires a betterunderstanding of philosophical terminology than most people in an elder collegium would blikely to have.0 of 1 people found the following review helpful. KindleBy howie gExcellent book, required for my science and religion course. It is a great read for anyone who is considering teaching science. It really shows how science and religion can be integrated and both have a place in modern life.
