**Captain Robert Falcon Scott : Scott's Final Expedition: Diaries, 26 November 1910-29 March 1912** before purchasing it in order to gage whether or not it would be worth my time, and all praised Scott's Final Expedition: Diaries, 26 November 1910-29 March 1912:

Scott of the Antarctic's amazing diary of the ill-fated Terra Nova expedition in which he perished along with Edward Wilson, Henry Bowers, Lawrence Oates and Edgar Evans after reaching the South Pole behind Roald Amundsen. Scott's diary has been constantly in print since first publication in 1913 and has sold almost 250,000 copies. However, the original illustrations that accompanied the first edition have long since disappeared from the cheap paperback

editions currently available. This new edition reunites for the first time in 100 years the diary with the stunning original photographs of Antarctic and the men of the expedition by Herbert Ponting.
