From Indrani Chatterjee : Slavery and South Asian History before purchasing it in order to gauge whether or not it would be worth my time, and all praised Slavery and South Asian History:

[W]ill be welcomed by students of comparative slavery.... [It] makes us reconsider the significance of slavery in the subcontinent." Edward A. Alpers, UCLA Despite its pervasive presence in the South Asian past, slavery is largely

overlooked in the regions historiography, in part because the forms of bondage in question did not always fit models based on plantation slavery in the Atlantic world. This important volume will contribute to a rethinking of slavery in world history, and even the category of slavery itself. Most slaves in South Asia were not agricultural laborers, but military or domestic workers, and the latter were overwhelmingly women and children. Individuals might become slaves at birth or through capture, sale by relatives, indenture, or as a result of accusations of criminality or inappropriate sexual behavior. For centuries, trade in slaves linked South Asia with Africa, the Middle East, and Central Asia. The contributors to this collection of original essays describe a wide range of sites and contexts covering more than a thousand years, foregrounding the life stories of individual slaves wherever possible. Contributors are Daud Ali, Indrani Chatterjee, Richard M. Eaton, Michael H. Fisher, Sumit Guha, Peter Jackson, Sunil Kumar, Avril A. Powell, Ramya Sreenivasan, Sylvia Vatuk, and Timothy Walker.
