Buy the actual book with binding By Love Me Some I bought this book knowing it was loose-leaf, which I thought would be beneficial such that I could take certain chapters with me to class. However, it was a mess when it came to studying and referring to certain sections of the book, papers out of order, etc. So, if you're a student, the money saved is not worth the grief, in my opinion. Get the regular textbook. 1 of 1 people found the following review helpful. Good book. By Heather L. Needed the book for a class and I really enjoyed it.
