**Steven School : SOL and LUNA: The Hermetical Wedding (ALCHEMY) (Volume 5)** before purchasing it in order to gage whether or not it would be worth my time, and all praised SOL and LUNA: The Hermetical Wedding (ALCHEMY) (Volume 5):

0 of 0 people found the following review helpful. Iron OxideBy Roy A. EdwardsThe Chemical wedding was beautiful. The bride and groom were tossed into the subtle heat of the midsummer's day. They slowly began to undergo changes.

The sudden ecstasy of it all was so overwhelming they turned a nice deep red. Such a beautiful red color were they that they could no longer contain their excitement. They united in the flame and became one. They became what is known as IRON OXIDE. IRON OXIDE when tossed into molten metal will color the metal a nice golden color. BUT when you test it your heart will fail from disappointment as you realize that you have spent years and your hard earned money making RUST. They are poorly written and you will end in failure. Stevie is not truthful. You will not make gold. You will make gold colored metal and that could end you up in jail. 0 of 1 people found the following review helpful. All of Schools books are a must have and read ...By Karen Krach All of Schools books are a must have and read if you are interested in simple explanations and descriptions of a very complicated subject... Also his information is TRUE and CORRECT!!!

In this booklet we will discuss and clarify Sol and Luna, we will cover processes and techniques of conjunction, imbibition, and multiplication. This booklet is the result of my own research and experiments in the ancient hermetic art of alchemy. For informational purposes only, no warranty is expressed or implied as to the accuracy or completeness of the information contained within this booklet. <http://www.howtomakethephilosophersstone.com>

About the Author The author of this series of informational booklets and DVD's undertook an extensive study in the mineral kingdom of the ancient hermetic science of alchemy with a focus upon the philosophers stone. The information presented herein is the result of the authors own experiments and research. No warranty is expressed or implied as to the accuracy or completeness of the information contained within the pages of this booklet. <http://www.howtomakethephilosophersstone.com>
