Hunter Stewart : South: Scott and Amundsen's Race to the Pole before purchasing it in order to gauge whether or not it would be worth my time, and all praised South: Scott and Amundsen's Race to the Pole:

1 of 1 people found the following review helpful. A real page turner By TomSA real page turner, I finished it the same day I started it. Hunter Stewart doesn't sugar coat anything and you see the real people, with all of their flaws, imperfections but heroic vision. 1 of 1 people found the following review helpful. Very good book about the race to the South Pole and ... By Ilene Truth is stranger than fiction. Very good book about the race to the South Pole and the men

who dared..1 of 1 people found the following review helpful. A great adventureBy Robert PickettI already knew the story, but it was still a great adventure read.

The race to reach the South Pole for the first time was an unparalleled adventure in the early twentieth century. South, by historian Hunter Stewart, chronicles the competition between two fierce rivals Robert F. Scott and Roald Amundsen- to secure their place in history as the first man to lead an expedition to the most uninhabitable place on earth. South dramatically tells the story of the quest that is marked by heartbreak, greed, ego, and bravery not only by Scott and Amundsen but by the courageous crews and financial backers who supported them. The journey to reach the South Pole was truly, as it was later called, The Heroic Age of Arctic Exploration.
