Excellent for the open minded truth seekerBy Michael D RedmondSince Justin Martyr lived about 150 years after the birth of Christ, and only about 60 years after the death of John, the "memoirs" of the Apostles were still fresh in the minds of the few generations of Christians. Justin's defense of Christianity to Caesar was a brave and honorable act, and his knowledge of Old Testament scriptures as well as the teachings of Christ demonstrated his maturity in the word of God, as he used prophecy to prove that Christ is the Messiah and that Christianity should be accepted. His writings indicate that Christians are peace loving, not interested in overthrowing the government, and not "cannibals", i.e. the eucharist. Justin's understanding of the importance of the eucharist and its weekly observance, the importance and purpose of baptism, the simplicity and purpose of Christian worship (on Sunday), and the gathering of disciples (rich and poor), who gave of their resources on a weekly basis (to care for needy), and the hope the early Christians shared in the resurrection and eternal life is a refreshing reinforcement of the simple teachings found in the Bible, before the centuries of additions and changes. Finally, JM was not perfect, and errors in his recollections were pointed out. JM was not an inspired writer, but a courageous early Christian.

An English translation from Greek of Justin Martyr's two major apologetic works, which are recognized as a formative influence on the development of Christian theology in the early church.

A very readable translation, with a helpful introduction and excellent notes discussing matters of the translation of difficult passages. --Ashland Theological JournalLanguage NotesText: English (translation) Original Language: Greek
