David Hatcher Childress : Technology of the Gods: The Incredible Sciences of the Ancients before purchasing it in order to gage whether or not it would be worth my time, and all praised Technology of the Gods: The Incredible Sciences of the Ancients:

1 of 1 people found the following review helpful. Challenging read By Betty the Bookworm He's done his research. I found this book very informative and easy to read. There is so much info that it's hard to boil it down to "What is this

book about?" Ancient machines, tablets, built cities, for which there is no way these things could have been made. It makes you consider changing all the current knowledge you have been taught and maybe starting all over again. 0 of 0 people found the following review helpful. Good read By Gracie R. I thoroughly enjoyed this book. David Hatcher Childress is one of my favorite authors. A wide variety of subjects is covered, and the history we didn't know is surprising. 1 of 1 people found the following review helpful. Overall a very good book. There was some amazing information presented in ... By Loretta M. Giulini Overall a very good book. There was some amazing information presented in this book that makes you truly wonder about the planet we live on. Although it's somewhat hard to read on the Kindle, mainly due to poor image quality and some text seemed to be associated with the wrong images, I would recommend this book if you have any interest in the Ancient Astronaut Theory.

Childress opens the door to the amazing world of ancient technology, from the computers of the ancient world to the 'flying machines of the gods'. The book explores the technology that was allegedly used in Atlantis and the theory that the great pyramid of Egypt was originally a gigantic power station. From beginning to end, the book is filled with facts, keen observations and tales that challenge modern assumptions in a humorous, intelligent and compelling way.

About the Author David Hatcher Childress is the author of 15 books, including The Lost Cities Series, The Time Travel Handbook and The Fantastic Inventions of Nikola Tesla. He has appeared in numerous documentaries about Atlantis, ancient mysteries and UFOs, including The Mysterious Origins of Man, with Charlton Heston, and The Search For Atlantis, with Richard Crenna. He also appears regularly on national and international radio programs. He lives near Chicago.
