Jr. Leslie B. Rout : The African Experience in Spanish America before purchasing it in order to gauge whether or not it would be worth my time, and all praised The African Experience in Spanish America:

2 of 2 people found the following review helpful. "the most complete and satisfying account of Spanish American black history available"-American Historical Review By history buff "A masterly survey-vigorous in its views, rigorous in its scholarship. . . a classic . . . This is decidedly a book with a message, but it is also an excellent book, and one that has been long needed." -Times Literary Supplement "The most complete and satisfying account of Spanish

American black history available Those of us teaching black history must thank Rout for a most valuable classroom text, and those of us working on the history of blacks in America will welcome an account that illustrates so neatly what what we know and what we do not." -American Historical Review

This text presents the broad historical contours of the African experience in Spanish America, from enslavement, resistance, and rebellion to the crucial participation of Afro-Latin Americans in the wars of independence, and a region-by-region account of their varied treatment in the newly-founded republics from the 19th century to the modern era.

"A masterly survey-vigorous in its views, rigorous in its scholarship. . . a classic" -- Times Literary Supplement
