The Southern Caribbean was the last frontier in the Atlantic world and the most contested region in the Caribbean during the Age of Revolution. As well as illuminating this little-understood region, the book seeks to complicate our understanding of the Caribbean, the role of 'free people of colour' and the nature of slavery.

'It is a very long time since I read such an interesting, original - and extremely well-written manuscript from a young scholar. This is a book of great originality, written with terrific verve and historical imagination - and on a topic which has oddly eluded many others working on the Caribbean.' - Professor James Walvin, Professor of History Emeritus, University of York
