This book is a wonderful compilation of Christian wisdom and inspiration. Any miracles it contains are not unbelievable but simply inspired happenings in these hermits' lives. I love the book and look forward to rereading it again and again. The desert fathers and mothers were so unusual. We could most certainly use their guidance today, and I would love to meet someone like them today.

The book is so good it deserves a second part or a more extended version. I am very happy with it.

Eyewitness accounts of the lives and teachings of the fourth-century Desert Fathers from the *Historiamonachorum in Aegypto*.

. . . may make a good source for the historian; it may give some information and pleasure for the casual reader. But the spiritual man will never forget the people he meets in it.
