bonepicker46 This book really blew me away, and answers a ton of questions that I'd had about the Kingdom of God, and the mentality behind the canonization process of the bible. This book is not for the close minded. It is a challenge to what has been traditionally taught in Christianity, and for me, this book has changed my entire perspective, and perception about religion. What I like most about this book is that the author posts his research bibliography, and the reader can do their own research, and draw their own conclusions. 1 of 1 people found the following review helpful. Highly recommended By Customer Excellent book so far and highly recommended! If you want to be free to experience encounters with the word of God as the faithful in ancient times did, this book will answer your questions about what the Hebrew experience and language teaches us. I'm expecting the greater works. 2 of 2 people found the following review helpful. Must Read for believers and ministers By Kingarthur This book is a must read for believers and ministers. Just the first chapter will provide insight and enlightenment which I believe are essential to our walk with Jehovah God through His Son Yeshua the Savior of the World. I'm not interested in commenting on many books because they are weak and pathetic in their views and attempts to comment on Scripture. However, when I do have something to share, I do so because it is usually life changing. This is one of those books for me.

"Christianity" was originally a faith movement within Judaism, wherein a group of Jewish disciples followed and lived by the teachings of the Rabbi Jesus (Yeshuah). Continuing in the spirituality of Moses, Jesus taught adherents how to embrace divine empowerment from God by entry into the kingdom. The Hebraic Faith Movement that began with Abraham reached its apex about 50 years after the death of Jesus. By the 4th century A.D., Christianity had completed its transition from what originated as an Eastern minded Hebraic faith tradition into a Western thinking, Aristotelian, Gentile religious movement. Like a tree severed from its root, the latter group was no longer dominated by its original Jewish constituency. Christians who were filled with antipathy for the Jews, redefined a new religious identity by imposing a legalistic reductionistic interpretational method upon the Koine Greek Scriptures to derive doctrinal formulations, religious creeds and a new order of sacramental worship; a system of praxis far removed from the concerns of their disavowed ancient ancestors of faith. With their separation from the Hebraic Tradition and anathematization of the Hebrew and Aramaic Scriptures, Christendom lost the ability to understand ancient biblical concepts including the term gospel.
