Its Good BUT!By DACY JI have to say I learned alot in this book, the way that it is written keeps your interest, the only complaint i have to comment on is that alot of whats written maybe starting from the middle, but more towards the end, the information is repeated in different sections, that made my eyebrow raise. If your not determined to finish the book, you would roll your eyes and put it down because the

information repeats itself, makes you confused as if you read the section before and you haven't because something new is in the same section..Its like that saying, "if you say it enough, maybe you will begin to think its true" ..Hmmm is the information True?...1 of 1 people found the following review helpful. It seems redoneBy lajoya1It is more one sided, giving only the East Indian perspective. Instead of chronicling the contribution of all the other races present during the time period covered.0 of 0 people found the following review helpful. Book does not live up to it's title.By H. Bholal got this book as a gift. I must confess myself disappointed when i read the book. Having grown up in Guyana and studied its history since I was 10, this book does a dismal job at what the title profess. There are spelling errors and typos at various parts in the book. The book itself tells a story from the authors point of view and it's not difficult to pick up on this. If you are looking for a book on Guyanese History any of the books by Vere T. Daly is a good choice, rather than this book.

The Making of Guyana.Guyana's rich culture mosaic is the legacy of the British plantation's economy, which after the abolition of slavery brought many indentured workers from British India, Indonesia, and China. They joined the descendants of African slaves, a large Jewish community, a European and Middle Eastern business and professional elite and the remnants indigenous Arawak and Carib people. Dutch, Hindustani, Hakka, Mandarin, and Javanese are also spoken.In Guyana English is the medium of exchange. Hindi and Urdu are only used for religious purposes by Hindus and Muslims.His Excellency, Bharrat Jedgeo, the President of Guyana is trying his best to expand and make Guyana a better place to live between East Indians and Africans. Bless him for all of his doings!
