**Roger Stone : The Man Who Killed Kennedy: The Case Against LBJ** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Man Who Killed Kennedy: The Case Against LBJ:

0 of 0 people found the following review helpful. Very interesting even if it is hard to know what to believe.By ictesterSome interesting theories (a lot of which I realize are not being first espoused here) and first hand information (mostly non-verifiable), a lot of which is of the "He said, she said" variety. There are some claims in here that are not factual based on other evidence. Very interesting learning about how much of a jerk Lyndon apparently was. As with most JFK conspiracies, it is very hard to know what to believe. You have to be very critical of every statement made

by these theorists as there are often false statements and outright lies. Would recommend for the JFK conspiracy curious. Could use some editing as the last part of the book seems to repeat a lot of what came before. Pretty conversational style that is easy to read but does seem to make it feel like you are reading a bunch of gossip or rumors. It does have a good bibliography and index for those interested in trying to confirm or deny any of this. 0 of 0 people found the following review helpful. The truth by Kenneth Millard Just as I suspected, and more background than I ever thought. A thinking man's guide, by a thinking man. A true revelation. 0 of 0 people found the following review helpful. Shocking! By Kindle Customer I found this story to be almost unbelievable, but the author's extensive bibliography following each chapter led me to believe he may well have built a believable case. Overall, I was repulsed, disillusioned and disgusted by the revelation of how "dirty" our politics are in this supposedly most civilized of nations. I have always believed (and hoped) this type of thing was confined to the worst of third world dictatorships! I guess I have been way too naive!

"We appreciate Roger Stone, he is one tough cookie." - President Trump  
The sensational New York Times bestseller, now in paperback. Find out how and why LBJ had JFK assassinated. *The Man Who Killed Kennedy: The Case Against LBJ* hit the New York Times bestseller list the week of the 50th Anniversary of the assassination of President John F. Kennedy. Consummate political insider Roger Stone makes a compelling case that Lyndon Baines Johnson had the motive, means, and opportunity to orchestrate the murder of JFK. Stone maps out the case that LBJ blackmailed his way on the ticket in 1960 and was being dumped in 1964 to face prosecution for corruption at the hands of his nemesis attorney Robert Kennedy. Stone uses fingerprint evidence and testimony to prove JFK was shot by a long-time LBJ hit man Lee Harvey Oswald. President Johnson would use power from his personal connections in Texas, from the criminal underworld, and from the United States government to escape an untimely end in politics and to seize even greater power. President Johnson, the thirty-sixth president of the United States, was the driving force behind a conspiracy to murder President Kennedy on November 22, 1963. In *The Man Who Killed Kennedy*, you will find out how and why he did it. Legendary political operative and strategist Roger Stone has gathered documents and uses his firsthand knowledge to construct the ultimate tome to prove that LBJ was not only involved in JFK's assassination, but was in fact the mastermind. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

A consummate political insider, Roger Stone views the JFK assassination through the prism of a murder investigator's first question, *cui bono* (who benefits)? Stone's shocking answer is that the primary suspect has been hiding in plain sight for 50 years: LBJ. A riveting account. Former U.S. Attorney David Marston I think this is probably the most definitive book . . . the most speculation free and certainly the most rubbish free work I have ever read on the subject. You would be doing yourself an enormous favor to get it, read it, digest it, and maybe read it again. John B. Wells, Coast to Coast Any serious student of politics or history should read Roger Stone's stunning new book *The Man Who Killed Kennedy*. Judge Andrew P. Napolitano Roger Stone nails LBJ for JFK murder! James O'Keefe III, journalist, filmmaker Stone's evidence is compelling and fascinating. Dick Morris, political author, commentator, and consultant GREAT book, you have it covered very well. Phil Nelson, author of *LBJ: The Mastermind of the JFK Assassination* Roger Stone is likely the only person who both had access to higher levels of government and is willing to stake his reputation on this particular theory. PolicyMic Stone's indictment of Lyndon Johnson deserves to be taken more seriously than anyone else's. JFKfacts.org Has evidence Lyndon B. Johnson arranged John F. Kennedy's assassination Daily Mail UK Startling revelations Sunday Times of London America's biggest cover-up exposed after 50 years! The Globe Bombshell new evidence! National Enquirer After 50 years, Stone exposes the truth LBJ did it. Florida Courant Backs up the bombshell claim of President Lyndon B. Johnson's former mistress, that LBJ was the power-crazed mastermind behind the assassination of the man he replaced in the White House, John F. Kennedy! National Examiner LBJ was far more evil, ruthless and unbalanced than we were told. South Florida Post Explosive! Radaronline.com Groundbreaking. East Orlando Post Stone's book will change American history forever! Robert Morrow, historian
