my father for Christmas. He's an avid outdoorsman and has been into mountain man activities my entire life. I hoped he'd like this and he did. I visited with him 10 days after Christmas and he had already read it completely. Said it was a very good book. Happy I purchased it for him. 1 of 1 people found the following review helpful. To know how the West was really won, start with the exploits of these unsung mountain men who, like the legendary Jeremiah Johnson, were real buckskin survivalists. Preceded only by Lewis and Clark, beaver fur trappers roamed the river valleys and mountain ranges of the West, living on fish and game, fighting or trading with the Native Americans, and forever heading toward the untamed wilderness. In this story of rough, heroic men and their worlds, Laycock weaves historical facts and practical instruction with profiles of individual trappers, including harrowing escapes, feats of supreme courage and endurance, and sometimes violent encounters with grizzly bears and Native Americans.

"George Laycock has gone to great details to portray the life of Western mountain men, and has done an outstanding job." --Charlie Richie, Backwoodsman Magazine
