Garrett Ward Sheldon : The Political Philosophy of Thomas Jefferson (The Political Philosophy of the American Founders) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Political Philosophy of Thomas Jefferson (The Political Philosophy of the American Founders):

0 of 0 people found the following review helpful. Very Good!By Carlos ChavarriaThis book is just what I needed and it was delivered right on time. It will help me immensely in understanding what I need for my Poly Sci class!10 of 12 people found the following review helpful. GoodBy eunomiusThis work provides a good survey of Jefferson's political thought, as well as an excellent piece concerning the intellectual battle over the classical republican paradigm. This piece, by the way, is well worth the price of the book. Nevertheless, although this is a worthy work, it pales in comparison to David N. Mayer's "The Constitutional Thought of Thomas Jefferson." If you are truly interested in Jefferson's political thought, Mayer's is the foremost work on the subject.3 of 3 people found the following review helpful. Dr. Sheldon's GeniusBy A. R. SteeleI have had Dr. Sheldon for several classes, and his books are amazing. He has written many works that any Political Science major would grow from reading. Dr. Sheldon has an amazing grasp of Thomas Jefferson and his Encyclopedia of Political Thought is the most complete volume I have ever seen.

Offers a concise introduction to Jefferson's political philosophy, and aims to make a contribution to a prevailing historiographic controversy: was Thomas Jefferson a Lockean liberal or a classical republican? Sheldon claims that his thought followed a rich variety of theoretical traditions.

"It's easy to see why John F. Kennedy told a dinner for American winners of the Nobel Prize that his audience was the most brilliant assembly ever gathered in the White House except when Thomas Jefferson dined alone." (Washington Post)"A timely survey of current thinking about the role of classical republicanism." (George F. Will)From the Back CoverExamining Jefferson's views on democracy, rights, freedom, and slavery as well as the cultural and economic context of his ideas in the Virginia gentry class, this book not only offers a concise introduction to Jefferson's political philosophy but also makes a thought-provoking contribution to a current historiographic controversy.About the AuthorGarrett Ward Sheldon is the John Morton Beaty Professor of Political and Social Sciences at the University of Virginia's College at Wise. He is the author of *The Political Philosophy of Thomas Jefferson*, also available from Johns Hopkins.
