Leen Ritmeyer : The Quest: Revealing the Temple Mount in Jerusalem before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Quest: Revealing the Temple Mount in Jerusalem:

0 of 0 people found the following review helpful. Five Stars By Eliezer Ben-yehuda Excellent as described. I strongly recommended this seller. 5 of 5 people found the following review helpful. Reitmeyers Lifework By snshn This is the definitive book on the temple mount and represent the life work of one of the two most outstanding authorities on the temple from a Biblical and archeological viewpoint. 0 of 0 people found the following review helpful. Recommend it By Doug I am not a scholar however I find this book extremely helpful in describing to me what the temple looked like throughout it's various phases. The illustrations and photographs are first class. The detail in the book is amazing

and in some cases more technical than I need, however the author does this in a way which is still easy for a casual reader like me to get out of the book what I wanted. I highly recommend it.

No book is better suited to the study, understanding and development of the manmade plateau that is the focus of the world's interest the Temple Mount in Jerusalem. Ritmeyer's experience as architect of the Temple Mount Excavations following the Six-Day War, coupled with his exploration of parts of the mount now hardly accessible and his doctoral research into the problems of the Temple Mount make him singularly qualified for the task.
