From Brand: Jewish Publication Society of America : The Second Jewish Catalog: Sources and Resources
before purchasing it in order to gage whether or not it would be worth my time, and all praised The Second Jewish Catalog: Sources and Resources:

1 of 1 people found the following review helpful. A Good ResourceBy D. ArisAlthough the three Jewish Catalogs are dated (written in the '70s) with regard to the topic resources, the material is worth the price.0 of 0 people found the following review helpful. Five StarsBy Rickperfect2 of 5 people found the following review helpful. simply too dated to be usefulBy Likes to eat PiThis is one of those books that simply no longer exists now that the internet is around. It contains ideas and references for various Jewish events. Much of the data is simply no longer accurate, and some seems to be useless in all times. I'm not sure if this book was ever useful except as a starting point for people who knew nothing about Judaism but wanted to "be Jewish" and were to afraid (or didn't know anyone) to ask. Nowadays, even that segment of the population would find this book fairly useless.

The successful sequel to The First Jewish Catalog extends the discussion of basic laws and practices and offers further suggestions on how to make them part of your life.
