IN KINDLE FORMAT!! What a disappointment, like reading a recipe without knowing what you are cooking!12 of 12 people found the following review helpful. Hidden Meanings in Michaelangelo's ArtBy JanlanMichaelangelo's connection with ancient knowledge and religions is explained and explored in this well written narrative. Unfamiliar details of his art are presented and exposed as the artist's camouflaged statements against the political and religious powers of his era. The book is a pleasure to read.3 of 3 people found the following review helpful. Wonderful bookBy Richard MyersI learned many things about the Sistine Chapel and I will not mention any spoilers. There are so many facts and the book has a very reputable group of scholars as the authors. I highly recommend this book.

The Shocking Secrets of Michelangelo's Sistine Chapel ArtworkThe recent cleaning of the Sistine Chapel frescoes removed layer after layer of centuries of accumulated tarnish and darkness. The Sistine Secrets endeavors to remove the centuries of prejudice, censorship, and ignorance that blind us to the truth about one of the world's most famous and beloved art treasures.

Just as the work of Michelangelo in the Sistine Chapel changed forever the world of art, so will this book change forever the way to view and, above all, to understand the work of Michelangelo! (Enrico Bruschini, Official Art Historian for the U.S. Embassy in Rome)This book of astounding revelations is built on careful scholarship, lucid exposition, and it is, above all, compelling reading. (Jonathan Harr, author of the New York Times bestsellers The Lost Painting and A Civil Action)(a) fascinating study of the Sistine Chapel. [] Like the best art historians, the authors give us a fresh context for the times, never hesitating to make contemporary parallels. []This is a stimulating exploration that makes familiar masterpieces seem strange and new. (Los Angeles Times)Fascinating.... Benjamin Blech and Roy Doliner appear to have few equals when it comes to the history and detail of the fresco.... a readable and informative piece of work. (Manchester Evening News (U.K.))The journey of analysis of the complex images rewards the reader with many profound insights about the artwork and the complex nature of Michelangelos ideas....fascinating and engaging!
