Paul Starr : The Social Transformation of American Medicine: The rise of a sovereign profession and the making of a vast industry before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Social Transformation of American Medicine: The rise of a sovereign profession and the making of a vast industry:

0 of 0 people found the following review helpful. Should be required readingBy BookloveR23So much new(to me) info. Everyone should attend discussion sessions on this book. That being said, it was a lot to take in. No speed reading this one. Made my brain hurt, a good thing!1 of 1 people found the following review helpful. Know the past to see the future!By Wiley TexSome detail gets a little redundant, but the insights into medical practice in America as it came into the scientific age is very good.0 of 0 people found the following review helpful. History of the many failed attempts to create quality affordable-healthcare for all before Obama CareBy Leslie C. CooverWritten before Obama Care came into being. I'd like to a book like this in 20 years or so to see if we have progressed or regressed in the pursuit of quality affordable-care for all.

Winner of the 1983 Pulitzer Prize and the Bancroft Prize in American History, this is a landmark history of how the entire American health care system of doctors, hospitals, health plans, and government programs has evolved over the last two centuries."The definitive social history of the medical profession in America....A monumental achievement."H. Jack Geiger, M.D., New York Times Book Review

"The definitive social history of the medical profession in America....A monumental achievement."New York Times Book "Superb sociology, superior history--and essential reading for anyone interested in the fate of American medicine."Newsweek"The most ambitious and important analysis of American medicine to appear in over a decade.... If you read only one book about American medicine, this is the one you should read."Ronald Numbers, author of The Creationists: The Evolution of Scientific CreationismAbout the AuthorPaul Starr is Professor of Sociology and Public Affairs at Princeton University and its Woodrow Wilson School of Public Affairs. He is the author of the Pulitzer Prize-winning The Social Transformation of American Medicine and The Creation of the Media. Starr is the co-founder and editor of The American Prospect. He lives in Princeton, New Jersey.
