Written by Mr. Alec Garrard, he gives you a backstory from the time of King Solomon's first temple and to the Babylonian destruction to the return of the Jews to Israel after the Persian victory. He gives you step by step time frames and a chronological timeline of it's entire history even up to muslim rule and finally to the rebirth of the state of Israel. Plenty of pictures on almost every page with closeups and his own miniature scale model of Herod's temple and temple mount built from years of research and investigation. The man constructed every tiny brick in his family's ceramic ovens to complete his rendition of Herod's temple. Excellent, thorough book on the Jewish temple! 0 of 0 people found the following review helpful. Outstanding

Information about Herod's TempleBy Charles B. RibbleThis book has the most complete information about Herod's Temple that I have ever seen. The information that was gathered by Alex Garrard allowed him to build a fantastic model of this Temple. I would recommend this book to anyone that would like to know more about this Temple. This book is a must for Bible Scholars and anyone that would like to know more about the life of the Jewish Religion during the time of Jesus Christ on Earth. 6 of 6 people found the following review helpful. a model example of a building which no longer existsBy Brian J. FegelyI cannot recommend this book too highly to readers intrigued by the described structure and functionality of the Herodian Temple in Jerusalem. The author has done two magnificent tasks: first, creating a scale model of Herod's Temple based upon descriptions from Flavius Josephus, the Midrash, and Scripture. second, writing a considered text to accompany excellent photos of his model, intelligible to anyone who can read English. His text and terrific color photos are unencumbered by "should-be" tradition, and the book makes a compact valuable addition to any Jerusalem scholar's library. Freemasons should note the shape of the main building from above. Tau for two?

A detailed pictorial tour of Herod's temple with full-color illustrations of Alex Garrard's perfectly scaled model. Each area is shown and discussed in detail. An exceptional introduction to the temple and its place in Jewish religious practice.

An English farmer and lay preacher devoted 18 years to creating a unique 1:100 scale model of this temple. The Splendor of the Temple is a lovely pictorial monument to that man's work, and it gives a running explanation of the temple's history and all of its items and rooms. (Baptist Bulletin 2004-06-03) --1 About the Author Alec Garrard is a lay preacher in Norfolk, England. Each "brick" of his model was baked in their family oven. His 1:100 scale model of Herod's temple is so large that it occupies a barn adjacent to his sixteenth-century farmhouse.
