African Theology should clearly be framed by African theologians, ...By Christie Billups, D.Min.African Theology should clearly be framed by African theologians, and Orobator is bringing his Nigerian voice to the mix. I was looking for something for a course that explores Christianity in an

African context, but this wasn't the right one. It's basically an introduction to systematic theology through an African lens looking at theologies of the persons of the Trinity and so forth. Very readable and accessible, but, again, not the book that worked for me. If one is teaching an intro to theology at the undergrad level and wants to take another perspective, this would work well. 0 of 0 people found the following review helpful. Excellent and Enlightening! By Noele J. Cooper Whether you have been to Africa or not, this book is a treasure for going deeper into spiritual reality. Different from the western linear interpretation, "Theology brewed in an African Pot" explores spiritual reality in context - relationships, culture, history, existing beliefs, connections. Very broadening for anyone schooled only in western philosophy and theology. I showed my copy to a friend who instantly wanted it, so I'm ordering another. 0 of 0 people found the following review helpful. Afrincan Pot gives a beautiful summary of African theological thought. By Blue Dragon Two chapters of this book are astounding. The chapter on Jesus and our elder brother is unforgettable for its insight into our relationship with Jesus. The chapter on Mary as the Sorrowful Mother penetrates the very real sorrow and agony of the contemporary African woman who can most readily identify with Mary in sorrow.

An intriguing introduction to Christian doctrine from an African perspective. Using a framework of excerpts from Chinua Achebe's well-known novel, *Things Fall Apart*, the author introduces the major themes of Christian doctrine: God, Trinity, creation, grace and sin, Jesus Christ, church, Mary, the saints, inculturation, and spirituality. While explaining basic Christian beliefs, *Theology Brewed in an African Pot* also clarifies the differences between an African view of religion and a more Eurocentric understanding of religion. Very accessible and engaging, each of the eleven short chapters ends with three discussion questions followed by one or two African prayers
